## **Voicemail Message Forwarding**

New and saved voicemail within NocTel can be forwarded to different extensions within an account.

## Step-by-step guide

- Connect to your voicemail inbox by pressing the voicemail key on the phone or dialing \*38 or \*98.
  While listening to a message, or during the message options press 6.
- 3. Enter the **extension number** where the message should be forwarded, followed by the # key.
