Exporting a Extension List

You can export a list of all **numbered** extensions in an account using the **Export List** link on the **Extensions** page. Clicking the link will download the information as a CSV file.

The downloaded list includes:

- Extensions Number
- Extension Description (Name)
- Assigned Billing Tag
- Extension Type (Poly, Go, Algo, etc.) (Virtual extensions type is left blank)

> **Unnumbered Extensions**
>
> Extensions that can't be dialed internally (Extensions without extension numbers) are not included on the exported extension list.
