

Go2 LDAP Integration

LDAP Sign-on Configuration

Please reach out to our support team at support@noctel.com for more information on LDAP configuration and setup.

For LDAP integration, please include the following information in the email to our team:

- BaseDN
- Domain
- Server

Example:

- BaseDN : DC=ad,DC,noctel,CD=net
- Domain: ad.noctel.net
- Server: <ldaps://ldap-host.noctel.net:636>

LDAP servers must be publicly available. Authentication requests will be sourced from our provisioning servers located at 216.93.246.0/24, 69.90.51.0/24 and 192.69.31.0/24. Please make sure these IP addresses are whitelisted.
