## Known Issues and Limitations

- **CANNOT REPRODUCE** **NOT PLANNED** Hovering over a region of a bar chart may not register the cursor resulting in no tooltip being displayed.
- **CANNOT REPRODUCE** **NOT PLANNED** Forecast plot's tooltip may live a negative value where one should not be possible.
- **PLANNED** Stacked bar chart visualizations do not properly order segments. Most of the segments will sort properly relative to the bar plot it is part of, but not all will sort correctly ascending and descending.
